"When it mins it pours" applies as well to fire as to the other element. Sometimes, and frequently, months pass away without our obranicling a caloric disaster worthy of mention; and then again they follow in as rapid succession as do the billows of the cosan during a nia, have our thanks for attentions by storm. This morning we have to report MR. W. A. Ammons one of our old directed exertions of the best are brigade on the face of God's green earth, gould yesterday from a tour through Florida, have resulted in serious disasters to the best property in the city. The alarm was immediately given by the po-liceman on the beat, to which the fire brigade answered by prompt appearance on the scene, and, with characteristic slacrity, the ergines were soon pouring a flood of water into the building, effectually equelching the incipient configculty in getting inte position because of the peculiar locality of the fire and the dense volume of smoke that threateded to sufficate those who attempted to enter the building. The stock of Johnston & Nunns we get from their balance-sheet of January 31st, amounted to twenty-four thousand seven bundred and ninety-nine dollars and sixty nine cents, to which additions had been made since that sheet was made out that would place the amount of stock at perhaps over twenty-six thousand dollars. The stock consisted of notions, novelties and fancy goods in general, of which none tut, dealers in "Fanchon" her specialty, and of whom it is said by all who have seen her interpretation of the character that she is the only "Fanchon" on the American stage, is full of absorbing the official statement. The insurance on stock amounts to \$22 500 as follows; interest, and another story as compared with the same play as given by other combinations. The patrolmen blew the slarm. and in a short time the trucks were on the spot, and the hore was unrolled and attached. A stream of water was pitched into the burning room from the fire plug on the corner of Center alley, and when the Hook and ladder truck arrived the boys mounted the ladders and carried the nozzle into the room. The steamers arrived soon afterward, and in a few minutes the fire was suppressed, although at one time it presente i quite an alarming appearance. The contents of the office, consisting of blanks, unused books and office furniture, where the lamp exploded were destroyed. The doors between the front and rear offices were burned through, but nothing was injured by the fire in the front or main office. General Sm'th, the customhouse officer, who being absent from the city and knew nothing of the catastrophe till yesterday morning, informs us that the damage

done by fire and water will amount to about two hundred dollars. The bank and offices below were not injured. FLAME NO. 3 was the total destruction of Mr. Helman's residence, a one-story frame on Ragiand avenue, north of the northern entrance to Elmwood cemetery, which occurred about ten or eleven o'clock Sunday night. Mr. Helman and his family had retired, and would have been burned up in the beds but for a negro man who gave the alarm just fu time for Mr Helman to save his children, while his neighbors got the furniture out of the house. The house was worth between \$1500 and \$2000, but was only insured for about \$500-in the Queen of London. The cause of the fire cannot be traced, but is supposed to

have been accidental. LAW REPORTS.

It was near one o'clock before the recorder's court adjourned yesterday. There were twenty-three cases disposed of, eight of which were for violation of the ordinance against doing business without license

John Cooper, negro, was arrested for swindling a country darkey out of fif-teen dollars at the Charleston depot on Ma Saturday last. He was sent to jail in default of two thousand deliars bail, and fixed fifty dollars for assaulting his victim, who followed him until a roliceman could be found. John Reynolds, white, was sent to

jail in default of bail for being a pickpocket. Christina Williams'and Rachael Williams (her mother), both negroes, were arrested for assaulting "Uncle Alfred," their landford. The fuss originated last Saturday night, when Christina, in comfrom the market to her home on Gayon street, near Wellington, in the tain, fell into the bayou which flows who it was in the bay ou, said: "She ought to drown; I'm glan she fell in."
These remarks led to the diffic. "ty which caused the arrest of the two me. above. Rachael was discharged, bu the blooming and fragrant Christina w. 's held in default of paying a city fine ci

ten dollars. Mary cims (colored) was arrested for being accessory to the larceny of five dollars, stolen from Mrs. Sternberger by Eddy Taylor, a negro youth of twelve summers. Home parties went before Esquire Thompson on Sunday and swore out a warrant against her, and abe was brought before the justice, who took her redognizance, with R. R. Church as se curity, in the sum of five hundred dollar, for her appearance before Recorder Duff on the following morning. Capwin Weatherford, who was on night duty, and thinking it was proper, re-leased her on the warrant and Lond mentioned. Chief Athy, Lowever, had er re-arrested, and she was brought out efore the Recorder for trial, and, in default of two tl ousand dollars bail, sent

Ephraim Bowen alias Armstrong, a white man who some three or four years ago was sentenced to the penifentiary obtaining money under false pretenses from some negroes, by representing himself as a great Indian voncoo doctor, was arraigned for playing his o'd tricks. He swindled an old negro named Jones, who lives on the Pidgeon Roost road, out of seventy-four dollars, by representing himself as a doctor who could drive away spirits, and cure people who were "under a spell." The story told by the old man was very amusing, and plainly showed he was a believer. Ephraim lingers in jail in default of two thousand dollars bail, and quarters at Nashville were never more

LOCOMOTIVE EXPLOSION.

One Engineer Killed, Two Engines and the Main Part of a Depot Building Wrecked-Loss between \$19,000 and \$15,009.

INDIANAPOLIS, March 13 .- At twenty minutes past twelve this morning the road had just arrived, and the engine which brought the train was standing alongside the L. B. and W. engine. Both engines are completely wrecked. The engineer of the C. H. and D. engine, A. E. Moore, was instantly killed, and the fireman of the same engine Isaac A. Ballard, was badly scalded and bruised, though not dangerously hurt. The engineer and fireman of the exploding engine were both on the engine at the time, but are not injured. The eagineer was thrown twenty feet from the engine into the street. The whole west end wall of the depot and ten or fifteen feet of the roof was completely demolished. Fortunately there were no other trains in the depot at the time of the accident, and it being Sunday night but few people were around, or the loss of life must have been much greater. No cause is assigned for the accident. The engineer reports that he had plenty of water and only one hundred and five pounds of steam. All the glass in the windows of the west haif of the depot were broken by the concussion. Loss estimated at ten to fifteen thousand doi-
